Exod. 1:21 "because the midwives feared God, HE made them houses"  
what is all this? Ans:

22. And PHARAOH charged all his people saying: Every son is to be drowned, every daughter saved alive.
   (This was Nimrod's arrangement in Abraham's time: He built a special house for zh children to be born in, and if they were girls they received queenly endowment from the King)
   [The motifs appear in EGYPTIAN Romances: The Doomed Prince, Asenath, Two Breathers, etc. Bed, Romulus]

Exod. 2:1.2. Moses hidden by his mother for three months

7. His sister shows up and offers to find a Heb. nurse (wet-nurse) [Hapy]
8-9. NOT because she wanted the child, but because "She had compassion on him." 6.
10. Only much later is the child brought to the princess,
   and she adopts him, names him Moses, an Eg. name given a pop. etymol.:
   (cf. Copt. mo-oudje, "water-saved"  Heb. masha, to draw out.

11ff. Moses always knew he was a Hebrew!

14. The Hebs. are not impressed: Who made thee a prince & judge over us?
   What WAS his office? Not a RP'T
   Eg. swarmed with overseers,

15. Of course Pharaoh knew where his daughter's adopted child came from
    and who the nurse was. He was prejudiced against Israelites but
    princesses had considerable independence.

Exod. 2:23. When Pharaoh died things got even worse for the Hebrews.
23-25. God decides that the Hebrews have about suffered enough, because they sigh, and cry, "and their cry came up to him..."
God will surely hear the sighs and cries of those in bondage, though others "allow the poor and the sick, the afflicted and the needy to pass by them and notice them not..." It is an old story, repeated on our day.

Exod. 3:1 Like all the patriarchs Moses at some time tends sheep.
"after (akhar) the midbar (on the edge of the desert, and he went to the Mt. of God—to HOREB (Land Desolation)—a place where humans do not go (Awatobi)".
"And the angel of the Jahweh appeared to him in a blaze (Labba) of fire in the midst of the thorn-bush (s'neh)...* the bush was bo'er burning up with fire, yet the bush did not shriveled (ubal) consumed..."

3. And Moses said, "Let's turn aside here so I can see this remarkable (great) sight: Why the thorn-bush is not burned up."

(Note to a corner of Palestine, but to all of Canaan: that occupied by Hittites, Amorites, Perizzites, Hivites, and Jebusites

10. I'm sending you to Pharaoh to arrange things.
11. ME? Me?
12. Don't worry—I will be with you.
And this is the what will confirm (indicate, announce, the OTH, sign—the proof to the world thereafter" and OTH is something that makes proclamation to the world: Lit. "And this will be YOUR proof [to the world that it is ME who sent thee: As you are leading the people from Egypt, ye shall serve HA-ELOHIM upon this mountain.

13. But when I come to my own people, who shall I say sent me? What name shall I give?
14. And ELOHIM said to Moses, "I am who I am" (asher).
LXX. Ego eimi ho on"—I am the one who is" Simply say to them 'One who really is sent me to you' (Never mind about the name!

Exod. 3:14. We still call upon God in that manner. We have a particular God in mind, and yet we know that the word can signify any god—it is the God we are THINKING of to whom we pray.

15. To be more specific, tell them, "Jehovah, the Elohim of Abraham, the Elohe of Isaac and the Elohe of Jacob. THIS IS MY NAME le'olam on the earth (for the age of this world—Grimm ) and this is my reminding (by which I shall be called to mind) from one generation to the next (1°dor dor = in this TEMPORAL world).

[The word ALL does not occur—all the generations of THIS world?]

LXX. "This is my name for the AEON (alionion) and a reminder from one generation to the next"

16. Go assemble the elders & tell them I have APPEARED to you, the God of Abr. Is. & Jac., and am pf. aware of everything that is happening in Eg.

17. I am going to bring them out of that into the great land

18. They will listen to you, and then you and the elders will go to Pharaoh and tell him 'Jehovah the Elohe of the Hebrews has summoned us (so also LXX), so no we must take a road of three days into the midbar to sacrifice to Jehovah our Elohim.

19. I know he will refuse & hold you back by force.

20. But I will stretch out my hand and show Egypt a few things—after that he will let you go.

22-22. Spilling the Egyptians: Collecting back pay.

Is this ethical? m w'nittseilen: bow is it pointed—means to escape from; m in the Hiph. it means to strip, but also to disengage from, cut relations with.

4:1. But God did not appear to THEE!—why should they believe him?

2. The rod becomes a serpent as proof.

[cf. the Bah. proof of godhead—to make a piece of cloth a-pear and disappear]

10. Moses (like En.) is slow of speech

11-12. God: I will take care of that!

13. Moses: Can't you for my sake just send SOMEBODY—ahanbody you please?

[cf. Zechariah's doubt: Mary's doubt S'rah i Enorn

14. God is displeased: Aaron will come to meet you; you will tell him what to say—

15. "and I will be with thy mouth and with his mouth and I will show the two of you what you are to do." Enorn

16. He will be your mouth and God shall speak to him through you.

17. Don't forget your rod!

18. Moses gets Jethro's permission to go to Egypt (Just like Is. and Jac. he is a vassal of his father-in-law)

19. There were a lot of men out to get Moses in Eg.—it was a dangerous time.

21. In spite of the wonders bef. Pharaoh, "I will harden his heart, that he shall NOT LET THE PEOPLE GO."

   Moses afraid to look.

8. I have come down to deliver you [He is the Savior]

12. Ye shall serve Ha-Elohim on this Mountain.

13. What name shall I give them?
14. Ans.: No name, just tell them it is I—I really exist
    Tell them I AM (Gk. The One who really IS) sent you.

15. Specifically, Jehovah who is the Elohim of Abr., (Is. and Jac.)

   [Jehovah was Elohim to Abraham, as he is to us—we have the same
   Covenant, we are the children of Abraham
   Jehovah is the name he is known by on earth in this temporal world.

16. Tell the elders I have appeared to you
    [Not just in your heart—they would believe that

18. To Phar.'...we must go to sacrif. to Jehovah OUR Elohim

5:1 The people do not believe Moses
   [They would believe a spiritual, abstract or mystic report. They would believe
   he had appeared to him in his heart, etc. etc.

13. Moses wants somebody to speak for him

16. Aaron will be your mouth and you shall be his Elohim.

   [Blasphemy? Moses is to Aaron as Elohim is to Jehovah.
   JEHOVAH IS ELOHIM TO US—they are the same.
   Any member of the Godhead can speak for the godhead
   (3 Ne. 19; Jn. 14-17)
   Jehovah is Elohim in the same sense that Aaron is Moses:
   "Who hath seen me hath seen the Father..."
EXOD. 4:22. More equations: "Israel is my SON, my firstborn → Shabako [Jacob was Israel, younger than Esau, etc. what does he mean? Jas. was dead and buried—how could Phar. hold him back? / Son do in Failah."

23. If you don’t let him go to serve me, I will slay THY son, THY first-born. [In a more literal sense]

24–26. (Another one of those enigmatic stories, an intrusion into the text, for which we do not know the details)

21. It was on the way to Eg.: falsh-back. "Before you go down into Egypt..."

24. "And it was on the way, at a hotel, that Jehovah met him and required (y’hagesh) his life (the taking of his life). Moses, son of Amram, son of Levi, son of Ram. Completely baffling? It is the ARRESTED SACRIFICE, as in the case of Abr. in His dealing with Pharaoh! F ac. I. Moses must make an atonement—but a SUBSTITUTE is provided, by the woman, Sarah = Hagar = Zipporah (Rachael = Tamar = Timnah’s husband = Son."

25. Zipporah (the rescuing bird), who takes a flint knife (Tzor. The instrument of sacrif. in the case of Abr. and Adam and sheds Moses’s SON’s blood, in a WOKEN sacrifice, which leaves a permanent mark—the mark of circumcision, which since the time of Abraham had been the mark of those who entered the Covenant—the proof of an arrested sacrifice.

"...she cast it at his feet..."

[Anciently it was given a formal burial—to show that the child has ritually died... "cast" = tagga = "place" —even reverently]

"And said, (I do this) BECAUSE KHATAN DAMIM ATTAH LI: KHATAN = a tóqñn of exchange, vb. "to form a mutual affinity..." blood-spouse, bridegroom = u. extract.

DAMIM, why in the PLURAL?
Attah= Abraham or the child?
It means that they have exchanged a token of sacrifice, as in the case of Isaac, a similitude of the Sacrifice of the SON.

LXX: "Let this be the blood of the circumcision of my child."
It is a symbol of sacrifice. As Abr. 24:4. gezerah shaddi’ah, Zipporah, (Rachel’s maid), (Nabal’s wife), (Abraham’s Ge-titha)."

26. (Her tone sounds contemptuous in the LXX, but it has nothing to do with that. Here she explains: KJ: "HE let him go...? Who? It is IMPERSONAL.
wa-yaref (NOT conversive!) = (araf, to tie a knot, rafa=heal.
LXX "And (she) departed from him, because she said, 'Let this be the blood of the circumcision of my babe'."

"They concluded the business with the formal words, You have exchanged blood with me...

27. Aaron was then commanded to go and meet Moses on the Mt. in the Midbar. They met on the Mt ha-Elohim and embraced (nashaq= to¡ bend the arm, embrace, kiss)

28. On the Holy Mt. Moses teaches all the ordinances to Aaron: "And Moses showed to Aerin all the things of Jehovah who had commissioned (shakhlo) him. and all the TOKENS (othoth which he had commanded him."

29. Moses and Aaron go and summon all the Elders of Israel.
30. And Aaron told all the dBárim which Jehovah had spoken (or done) to Moses, and he performed the signs and tokens for the eyes of the people
Exod. 4:30. "And Aaron told all the things that God had told to Moses, and performed the symbols (tokens—othoth) for the eyes of the people."

[He is not just preaching to them—he is instructing them in "things"

4:31. And the people believed it and obeyed (hearkened). because God had visited the Children of Israel and had seen their misery, and they bowed down and worshipped.

Exod. 5:1. Thereafter Moses and Aaron went to consult Pharaoh: Thus saith Jehovah Eolhim of Israel: Let my people go so that can celebrate my HAG in the midbar.

2. Phar: Who is Jehovah [Showing it was a proper name: he would not have asked simply who is God, without specifying] that I should listen to HIS voice?, to release Israel I don't know any Jehovah, and what is more (gam) I am NOT going to let them go!

3. And they said (Mos. and Aaron) Elohe of the Hebrews has met with (come upon) us; let us please (nah) go the distance (road) of three days in the midbar and sacrifice to Jehovah our God, lest he afflict (lit. meet with) us on the road or in the wilderness (Hereb—Horeb, Land Desolation)

A lesson in Management: Phar. Production!

4. Phar. That will keep the people away from their proper activities—(You are desecrating the work ethic—back to your burdens (sabbah is a porter).

5. THE SAME DAY Phar. ordered the nog' sim (expediers, pushers, drivers) of the people and the police (shoterim) to break up the strike, saying:

6. "Stop giving the straw for their brick-making"

[DIVING it to them—spoilng their characters; an outright govt. handout!] Let them go collect the straw for themselves.

7. [This was not an act of cruelty in his eyes, but of efficiency, can be paralleled by thousands of instances in the daily operations of business. Adding the straw-gathering operation to their duties would both save expenses and keep them out of mischief.

8. Let us also step up production 100% increasing the daily quota (LXX)

They get these ideas about going out in the country to worship their God, etc. simply from not being given enough to do.

9. Just given them enough to keep them busy and they will stop all this nonsense! Lit. "Increase the workload on the men and they will be too busy to think up subversive tricks (yishbu yish'u; b-dvare-sheker)

(This was not considered cruelty or injustice—it has been standard business philosophy throughout modern times—pay as little as you can for as much as you can get.

Grandpa N. You get vast concessions of timberland under the Homestead Act: the men sign up for the 500 acre tracts and then deed it over to you in return for steady employment.

You hire them for a ten or twelvel-hour day at a dollar an hour if possible. You charge them room and board for sleeping in your bunk-houses and eating in your mess-hall. You surround the whole complex with a high wire fence. You operate a company store on the grounds—no other store within miles, and allow them to charge as much as they want. And so you see to it that when the season is over not a man leaves that compound with a dollar in his pocket. You have got every cent back, plus the vast lumber profits.

He got into real trouble with other mining and lumber men for his too liberal policies with labor.
Exod. 6:1. [The time has come] Jehovah to Moses: NOW you will see (what this is all about) what I am going to do to Pharaoh, because I am going to release them with a powerful hand, with a mighty hand I will bring them out of his land.

2. Elohim makes the first thing clear to Moses: I AM JEHOVAH.
(The Law of God, the Law of Obedience must be established before anything follows; it is the essential condition of the whole scenario, making it different from any other history)

3. And I APPEARED to Abr., & to Is. and to Jac. as (in) El-shaddai
   and by my name JEHOVAH I was not known to them.
   (Why not? If they were the same, why this distinction?
   Why should he go under any other name than El?
   Different name denote a) different functions, b) different offices

4. Also I established my covenant with them, to give them the Land of Canaan,
   the land of their SOJOURN in which they (formerly) lived.

5. Also I have heard the cry of the Children of Israel, reduced to servitude
   by the Egyptians, and I remember my covenant.

6. He will deliver them from their load "with an arm stretched out"
   and with great shefet
   [shefet = discrimination, evaluation, evening accounts, SETTLEMENT
   "outstretched arm" = INTERVENTION.
   God holds back until the time is ripe, the cup is full
   he seems to be "hiding". Until the cup of iniquity is full,
   Then he intervenes openly and visibly, he "bears his holy arm in the
   eyes of all the nations"
   D.C. 1:14 "And the arm of the Lord shall be revealed..."

7. He intervenes to SAVE as well as to strike. Without the REMNANT all would
   be lost. He is going to separate some; reorganize them, give them a
   special calling, recalling them to the Law of God and the Law of Obedience:
   "I will TAKE you (laqah) for myself as a people...
   [What an honor, what a privilege, what a responsibility!]
   (and I will take over completely) I will take the place of any other gods
   you might have had, lit. "I will be to you for Elohim,
   and you will KNOW that I am Jehovah Riwkim YOUR Elohim
   [This is the sense in which Jehovah is Elohim. Not necessarily the only
   one!
   "And I will cause you to come out from under the burdens (obligations)
   of Egypt."
   (If we are to enter into covenants with God we must DISENGAGE from the
   world. This as B.Y. often noted, the LDS have been reluctant to do)
   Israel was "in Egypt but not of Egypt"—an intolerable situation
   God does not require his people to come OUT of the world without supplying
   a better place for them to move into. If they have enough faith in
   him to make the move, it will be to their advantage, as all our ancestors
   found out. 1 Ne.17:38. "And he leadeth away the righteous into precious
   lands, and the wicked he destroyeth, and curseth the land unto them
   for their sakes."

8. HE is allowing them to take over the land promised to Abr. Is. and Jac.
   as an inheritance. And now he is leading them into it. I am Jehovah.

9. This was Moses's message. But they found it TOO GOOD TO BE TRUE.
   "Moses told it exactly so to the Israelites, but they wouldn't listen
   in their exhausted (lit. out of breath) and overworked condition."

Exod. 7:1. God to Moses: "BEOH I HAVE PLACED THEE (an) ELLOHIM TO PHARAOH AND AARON THY BROTHER SHALL BE Thy PROPHET (Ident. in LXX) [Was Moses God? Was Aaron HIS prophet? Yahweh himself as AN ELOHIM to the Children of Israel.

7:2 YOU utter everything I command you to, and your brother Aaron will tell it to Pharaoh: and HE will release the Sons of Israel from his land."

3. But I will harden the heart of Pharaoh, and increase my signs (othai) and moftai = a thing openly and marvellously display—he is going to make bare his ARM.

4. Pharaoh will not listen to you, but I will place my hand in Egypt and cause my hosts, my people the Children of Israel to come out of the land of Egypt with great reckonings (judgements).

5. And they shall know, Egypt (same as name of the land—the TWO Egyptians) that I am Jehovah by the stretch of my hand upon Egypt, and bringing out the Children of Is. from their midst.

[Did they ever learn THSEIR lesson?]

6. And Moses and Aaron did EXACTLY as the Lord told them.

Exod. 8:23. It cannot be in Egypt, we must go at least three days' journey into
the midbar to sacrifice to our God as HE commands it (Law of Obed.)
24. Phar.: All right; I will let you go and sacrifice to JEHOVAH YOUR GOD
IN THE DESERT. But don't go too far! Also, put in a word for me. Not a fly

25. Good enough. I'll do that—and get rid of your flies.
ONLY this time—no more tricks when you let them go to a sacrifice!
26. So MOSES went out and appealed (šatar = burn incense) to the Lord for PHARAOH.
27. And JEHOVAH did as MOSES asked and turned aside the swarms entirely.

28. But once again PHARAOH asserted himself (lit. yekabedth eth libbo, i.e. made
his heart big, important, glorious, presumptuous,
and would not release the people. Type: corporate behavior; i.e., a game of
outwitting, outlasting, baffling, manoeuvring

Exod. 9:
1. MOSES sent back again acting for JEHOVAH THE GOD OF THE HEBREWS.
2. If you keep this up and go on cracking down on them (makhāziq bam)
3. THERE WILL BE A MURMUR ON EVERY KIND OF CATTLE AND SHEEP.
4. With the Israelite cattle immune.

5. This time a definite TIME LIMIT is set. An ultimatum: One Day to act.
6-7. IT happens, but the effect is to make PHARAOH MORE stubborn.
8. So the next day all the Eg. cattle died.
   But none of the Israelite cattle died, so PHAR's heart was pufffed

10. MOSES and Aaron follow instructions with dire results.
11. The Magicians are too laid up with sores to compete.

12. PHARAOH stubborn as ever, or moreso.

13. Another early morning appeal for Jehovah the God of the Hebrews

14-21. What this is all about: It all has MEANING.
"Now THIS time there is going to be a culmination of all my plagues
upon your heart" and on all your people,

TO make it clear that this is not just chance; this is beyond the normal course
of nature, this is a special kind of power: "There is nothing like me

27. This breaks Pharaoh's resistance: he even **confesses** that his punishment is just, I have sinned THIS TIME, I and my people are wicked (res'ha'im)

(What head of state will admit that today? We have done no wrong—we meant well, we only did what everybody else was doing; we did it for the good of the nation, we all make mistakes but we did not wrong; we did what we thought was best, etc. etc.)

28. Tell the Lord to stop the noise and you can leave, now. **(Rorrin' hail 'thunder)**

29. **unnovit** Yes: I will do that as soon as I am clear of the city!

Now you know that the earth is Jehovah's.

Exod. 12:1ff. This new beginning is to mark the great NEW YEAR

3-4. Every household must have a lamb.

4. Houses can get together on it if they are small [Exodus, Teaching]

[Cf. FAMILY NIGHT]
Exod. 12: 5-6. A perfect lamb. Kept by itself for 2 weeks until the 2nd wk. of THIS
(Raised as a pet? That makes the sacrifice more moving)
"You shall have it as a HAGHMERETH." [Shamar= keep, guard, cherish =shamad]
And then slaughter it... all being present, in the evening.

7. TAKE THE BLOOD, some of it, and put it on the two mazzoth

in fire
and masros upon bitter things you shall eat

[Boiling is cooking, not sacrificing] all sacrificial meat cutting
the head upon the legs and upon what is nearest

10. And you shall leave nothing of it over till morning
but burn any leftovers with fire by morning. [plausible for the 60th.]
[The mortal body of the Lord was completely transferred, nothing remained of it in the tomb--He is NOT here, he is risen!]
Why seek ye the living among the dead?

11. And this is how ye shall eat it: With your loins girt [in the NE, cinched up, ready to go; at the usual meal you relax--mabsut--and let out the belt],
you shall have your SHOES on your feet = raseh (☞= paruk),
[Whenever you enter a house socially you remove shoes and relax],
and with your staves in your hands [No long walk without the stick]

And you shall eat it with khippazôn = in a great hurry, all set to leave
[khaphaz = to spring to your feet, jump up in alarm, get out of a place in a hurry]

For this is the PESACH for Jehovah

These are the circumstances under which we may be redeemed. That we disengage
from the world in a state of sorrow and repentance (☞=delay)

While they are in this fearful passage, what is the state of the world?

12. In that same night I will pass over the Land of Egypt and smite all the
first-born. Of BEASTS as well as MEN.
[The animals pay the penalty of man's wickedness. They too are involved
in the redemption of the world as in its destructions]

[A stock situation in Eg., e.g. the Sieg ueber Seth, when Seth enters
the sanctuaries and lays everything waste]

13. You shall take the BLOOD as a TOKEN ON THE HOUSES IN WHICH YOU LIVE ARE
And I will see the BLOOD and I will PASS OVER YOU and you will not have

Exod. 12:15. Seven days matzos shall ye eat.
Likewise in the first day you shall remove (shavat = put aside) she'ur = leaven or she-ar, remainder= everything else) from your houses
[She'ur is what has been left over and spoils.
Leaven is zymotic, ferment, the corruption of the flesh; also takes time. Matzoh: eidos Sh'shahd.]
For whoever eats khamets = hamid, vinegar; anything sour or spoiling, hence sour-bread, yeast, that soul will be cut off from Israel.
from the first day to the seventh day.
[This is the week of the 1st. when all perishable things shall be done away]

12:16. And on the first day a holy calling together of Jehovah, as on the 7th day also. On them mow. NO WORK shall be done, except for what one needs to eat for everybody—only that will be allowed.

[A holy-day is a holy-day in which ordinary work must not be done; in some religions such as Judaism and esp. Xty. (the Letters from Heaven make this the great and abiding sin for which the Xtn. world is constantly being punished) to work on that day is a great sin. It is a holy time set apart to point our minds to special things.

How easily yesterday a trick of public relations converted that sin of desecrating our principal national holiday by business as usual into a virtuous act, when all the stores announced that they were staying open for the purpose of benefitting the nation with their Patriotic Sales!]

17. And not just this time: Ye shall retain the matzos for on this very day I brought your hosts out of Egypt; and ye shall keep observance of this day prescribed by ordinance (cov., law) throughout your generations forever.
18. From the evening of the 14th to the eve of the 21st day of the month.

(THE BLOOD IS A BARRIER / St. Exempt from immured)
23. For when the Lord passes dthru & sees the blood he will pass by (pesach) and not allow the destroyer (mashkhit) to enter the door to smite

25. This practice is to be observed after they reach the promised land
26. If your children ask, What does this business mean? Say:
27. It is for the Passover in Egypt.

So the people yiqqod (nagad = to specify bky markings, make a sign or token, Ar. naqada) and bowed in worship

LXX kai kypsas ho laos prosekyenesen & finding

KJ the people bowed the head (As a sign of accepting the commandment)=
28. they went and did exactly as Moses and Aaron told them—they accepted.

29. In the middle of the night all the Egyptian first-born were smitten as told.
30. What a night for the Egyptians!
31. Finishing in the morning While it was still night, Pharaoh sent to (for?) Moses & AARON: "Get up and get out of my country, ALL of you, and worship your God as you said. 32. Including all your cattle—get out of here—But GIVE A BLESSING TO ME TOO! (No longer arrogance—a cry of distress)
33. And the Egyptians could not get them out fast enough. For they said "We will all be dead if this goes on!"
In Israel the purpose of the temple is sacrifice, the periodic festivals and ceremonies are all sacrificial gatherings. The object was atonement. It was at a place of consecration, the place itself consecrated, all being geared to the revolutions of the spheres—the real cosmos.

Hamlet has everything one could possibly ask for: great wealth and power as a prince, popularity, athletic prowess; he "the glass of fashion" the envy of the youth, has a gorgeous and adoring girl-friend; yet he finds life "weary, flat, stale and unprofitable," and is only kept from suicide by fear of what might come after. And the worst that might come after is—nothing!
Exod. 13: 8. Intimate and personal: Show your SON that this is to remind him of the time Jehovah did a great thing for you, leading you out of Egypt.

9. Certain signs & tokens go with it: You shall have for it a sign (oth, token) in the hand—strictly a token, if a token is a "touching"), and between the *eyes* a reminder, so that the word of Jehovah may be in your mouth; for with a mighty hand Jehovah brought you out of Egypt. [What you SEE is what you WILL TELL, how the HAND of God LED you...]

11. When you get there, the first-born of man & beast shall be "set apart unto the Lord, 1st., all the first-born males in the land (Sacrifices for a first born—T HE family pet—also; donkey, etc.)

12. The first-born redeemed by a substitute by a lamb (Substitutes for an ass—T HE family pet—also; donkey, etc.)

14. Again the redeeming = the deliverance from Egypt. It was redemption from death—because while the first-born of everything in Egypt was slain, the first-born of everything in Israel was saved= "redeemed" (i.e. paid-for by a SUBSTITUTE). The principle of PROXY prevails throughout.

15. A token on the H ABD, a mark between the EYES, for the HAND of deliverance.

17. THE short-cut to Canaan was the coast road thru Philistia, where they would have run into real trouble with the Greeks, thought twice about it and gone back to Egypt. "In the cloud & in the fire"—the people by a detour (yasseb) on the road of the midbar (semi-wilderness) of the Red Sea

19. THEY TOOK THE BONES OF JOSEPH with them, as he ordered.

21. A strange phenomenon "And Jehovah went before their face, by day in an 'amud 'anan la= eḵkhatom on the way and night in a pillār of fire to make appear to them (which way) to go by day & by night.

8. THEY TAKE OUT AFTER THE HEBs., the Naharina aristocrats, in high spirits— it is going to be a pushover. Whywontwejustdothis? 

9. Blitz krieg: the Eg. whirlwind overtakes the rabble.

10. A terrifying sight—Pharaoh achieves complete surprise with his armored spearhead.

11. They blame MOSES: what was the big idea—this is what you were taking us away from? Could'nt we have been conveniently buried in Egypt?

12. We T OLD you to let well enough alone, but NO, you would not listen!

13. MOSES: the play is not ever yet [this was Joseph's lesson to us] Just wait and we will see what Jehovah will do. You are seeing the last of the Egyptians [the Lord ALWAYS has the last word

14. He will do the fighting for you, and you takhrishun = lay low, tend to your own business, Ar. to be deaf, hence to be still

15. The Id to Moses: Now why are you asking ME what to do—you are in charge: tell the children of Israel to keep moving.
Exod. 14:16. And you cause your staff to rise, and stretch out your hand over the sea and split it; and the children of Is. will go in the midst of the sea on dry land.

[The phenomenon of the Bitter Lakes, the winds, etc.]

The volcano is probably the explanation. Earthquakes on the coast almost always cause the sea to withdraw and then return as a Tsanum. This is routine: volcanoes go with earthquakes, earthquakes go with Tsanumis.

17. I will strengthen the hearts of the Egyptians (give them confidence) and they will go after them. And I will magnify myself through Pharaoh, and all his military might, his armored divisions & his cavalry.

[Pharaoh had a mighty force so mighty that no other nation would dare attack him. An impossible situation: no rational person would attack, but who is rational when war breaks out? What about Israel in 1948?]

18. The Egyptians will know who runs things: God is NOT always on the side of the big battalions.

19. The angels who went before the camp (heretofore it was Jehovah himself as in the Abraham stories) now took up position behind them; and the pillar was also behind them—they were on the coast & had changed directions.

20. But it was between the two hosts, so that neither could attack in the night or until the set up was ready. Israel might have attacked by night for an advantage, as well as the Egyptians, who needed light for their chariot & cavalry maneuvers.

21. The going back of the sea was by a strong east wind that blew all night over the shallows & sands. So now the water moved west & the connection between the lakes & the sea was broken for a time.

22. So Israel slipped through on the exposed dry ground and for them the water was held back on either side as if by a wall it was dry in the middle, just as if somebody was keeping the water of with a dike khalim = "to bind, join, to hold, enclose, contain" which is what a dike does) on either side of them.

Nothing to suggest perpendicular 200 ft. walls of water quaking like jelly (de Milles's sensation)

23. Pharaoh's army took the same route, the passage between the two bodies of water—where they could go, he could go (Suvoro's dictum) Alex Nevski & Ladoaga.

24. But they ran into trouble: the morning watch saw something was wrong as "the Lord looked through the pillar of fire & of the cloud"—the volcano-earthquake was intensifying Tron?

25. Wet sand in nowhere to park cars or drive cf. slow narrow-wheeled chariots. The Egyptians changed their minds & tried to turn back.

26. It was too late—the water started returning. Sands o S.Michael

[What does the stretching out of Moses' hand have to do with all this? Everything. The laws of nature are in God's hand—his understanding of them & hence his control of them, is perfect.

It is the timing, the correlating of events that makes it clear that there not only appears to be a relationship between the raising of the hand and the rising of the waters—there actually IS a connection.]

As the nature of the characters determines abs. what course a play will take, it is immaterial when the evil man makes & finds trouble and when the good person wins out—they are always losing and winning resp. But one who knows exactly what is going to happen in the nevironment, etc. can steer any normal foolish vain person into any situation he wants to. Such a person was Pharaoh—it was a pushover for God. As was Hitler, who stopped the Battle of Britain within 2 days of winning it & the Battle of Normandy which he could easily have won in a day.

The nations (Centiles) heard and were engaged

and the leaders of the Moabites were seized with trembling
and all the inhabitants of Canaan etakesas = melted and dissolved

27. With daylight the waters returned with a rush, & the Egyptians tried to outrun it [showing that it was NOT a perpendicular wall but a rising of the level of the water caught up with them, & they remained in the middle of it—the sea had returned.]

28. "And the waters RETURNED and covered everything

29. And the Israelites went on the dry part,

(Yehidah) does NOT mean parched, etc. but land as opposed to sea: The dry landisha we will call earth, & the waters we will call seas

and for them the sea was like a dike on the right & left hand.

[Even DeMille said that this could not have been happening at the same time as the Egyptian debacle—FIRST the children of Is. pass through; THEN the sea rises. Some old pictures show the israelite walking between soaring perpendicular walls of water, while right behind them the walls clash together & the Egyptians are being tossed around]

30. The Egyptians were NOT swallowed up in the deep, but drowned and soon washed ashore, where the Israelites saw them—wreckage all over the place.

31. This put the fear of the Lord into them. Now they were willing to have faith in (yaeminu) Jehovah and in his servant Moses.

Exod. 15:1. Thus sang Moses & the Sons of Israel this song to Jehovah as follows:

Exod. 16:4. The Lord said, " Behold I will rain bread from heaven, so they can go out and collect daily supplies of it (this is the daily bread for which we pray) for the express purpose of proving them, whether it (the people) will walk in my law or not."

What has bread from heaven to do with keeping the Law?
With God's Law comes God's bounty - if we keep the one we enjoy the other; the real test is not poverty but abundance. Almost everyone has survived hard times, but who can survive good times? The Nephites could not, and God has provided the same test for their successors in the land.

19. Moses: None of it shall be left over at the end of the day.

20. This was too good an opportunity to miss. What a chance to up production! They ignored Moses and saved some over from the previous day -- It was not the daily bread that God gives us willingly, it was hoarded capital against a rising market when the stuff would be scarce. They were buying futures: For which God at once rebuked them and Moses was furious.

We abuse the goodness of God by using the bounty of the earth to take advantage of others for personal profit beyond our need-- we call it "vision", "far sightedness"

another—WHEREFORE TEH WORLD LIETH IN SIN.

Introducing himself to J.S. in the GROVE, the LORD said: "Behold the
world at this time lieth in sin, and there is not one who doeth good—no not one! And mine anger is kindled against the inhabitants of the
earth to visit them according to this un godliness.

[Why does the world lie in sin? Because one man possesses that which is
above another, as "every man walketh in the image of his own way, after
the image of his own God...an idol...in Babylon." (DC 1:16)]
This is what the Israelites were doing in the desert, continued rebukes
failed to change them.

(Are we moving toward a local economy resembling the world economy in which
everyone has either not enough or too much?)

29. God has given you the Sabbath & the bread, and told you what to do with
both
30. The people finally got the point and rested.
[Here we have the purpose of the wandering in the wilderness—they could
learn their lesson only by painful experience

31. Description of Manna: The children of Is. called it MAN,
   AND IT WAS LIKE A SEED OF GAD + = coriander, white
   Its taste was like cakes of honey
32. THEN Moses(God) commanded them to fill a measure (omer) for exhibition

   wilderness, show it to them.
33. Aaron commanded to keep the stuff in a TSINTZENETH= jar
34. It was kept for a TESTIMONY (the National treasures)
35. They lived on Manna for 40 YEARS!

Exod. 17:1. From ZIN they move to Raphidim (rafad Ad., Heb., support, spread out= couch or refreshment). Again NO WATER.

2. Again the people take Moses to task. Mos.: Why are you quarreling with ME (Cf. Mormon), Why do you try to see how far you can go [nas= lift, try, assay] with God?

3. The water shortage and complaints continue: Have you brought us out here to die [Saraih]

4. Mos. to the Ld.: These same people are about ready to stone me—what to do?

6. And I will be standing on a rock there upon the rock in Horeb [the dryest part of the desert = Desolation], and you will hit the rock and water will come out of it, and the people can drink. Moses complies.

7. Mos. named the place Massah [Massah, above= lift, weight try, test and Miriyah= quarreling, argument, because of the riv (altercation, backtalking of the Sons of Israel, and their challenging (testing) of Jehovah when they said: Is Jehovah in our midst (or near-by) or isn’t he??

8. They meet opposition: a desert chief with a B.M. name, Amalek, attacked them at Raphidim.

9. God fights their battles: avoid a general engagement, select the champions— desert fashion. Moses will stand by on an elevation with his staff:

10. Joabral and the force while Moses & 2 counsellors stand on the hill.

13. And Joshua wore down [khalash] Amalek’s men with his fire-power (the edge of the sword, superior weight or persistence

14. This was the end of Amalek: the Lord begins to write off tribe after tribe in the land. Why? L.Nephi 17:22, 33-38***

The Lord commands Moses: "Write down this so it will be remembered, in a book and put it in Joshua’s EARS.

12. Jethro makes sacrifice and all the Elders unite in a feast "before God".

We do not go to the Temple to be sanctified, but to commit ourselves to a program whereby we may become such. Covenants and promises do not sanctify; sthey really put us in a dangerous position, for God will not be mocked."

6. THEY MUST GO ALL THE WAY: "And you shall be my kingdom of priests, and a HOLY nation (goi qadosh)

7. Moses went and told all this to Israel.

[Didn't Jehovah know what their answer was? 
The purpose of the project is MAXIMUM PARTICIPATION: this is my work and my glory—and for that purpose those concerned must be taken into the action as often and as far as possible]

9. Because they had taken that step, the Lord now takes the people a step nearer into his confidence. Moses is instructed to announce to them screened by a cloud [lit. in the thickness, shield] of a cloud 
[As on the Mt. of Transfiguration*** 
Where Moses participated with the others—maximum participation in the process of the Dispensations

For on the third day Jehovah will come down for the eyes of all the people on Mt. Sinai.

12. [This is a dangerous situation for mortals. The first reaction to the angels' presence is to be "sore afraid"—The "culture shock" along could be fatal. 
The people had to keep their distance. ]

"And thou shalt set up a BOUNDARY (highalta) for the people all around (sabib—the lit. or the people) whoever touches the official boundary of the Mt. will instantly die [Noth yumat= will absolutely be killed; a million votes. 
Does NOT mean he will be formally executed as in the case of some sins; it simply says that as soon as you cross the line you are a dead man—you will be killed, by whom is not stated but is clearly implied. 
The translator of the KJ version thought in legalistic not scientific terms.
Exod. 19:13. They shall keep their distance, "not a hand touch it" (expr.) whoever steps out of line whether man or (lit. best shall find himself bombarded with stones and missiles and wiped out by whom? by the Mt. [cease]

when the noises (phonal) and the trumpets) and the cloud goes away from the mountain, then they (those) can approach the mountain. Mt: At the drawn-out sound of the yobel prolonged loud noise, any loud sound they shall go up on the mountain.

14. Moses comes DOWN from the Mt. to the people, and he sanctifies the people, having them wash their clothes.

15. He said to the people, Be PREPARED for the 3rd day; do not touch a woman (lit. in the day came the fireworks resume) "noises" (NOT thunder) and lightning flashes and a heavy (dense: kabadh) cloud on the Mountain, and the sound of a very powerful shofer, and all the people in the camp were terrified.

16. And Moses led out the people to meet Ha-Elohim (Cf. Ex. 22:28), taking up a position at the base of the mountain.

17. This was the most powerful eruption yet: "Mt. Sinai was completely ashan indicating that (me phen asher) Jehovah had come down to it in fire: the smoke poured out as from a raging furanace, and the whole mountain was violently shaken.

18. Then the long trumpet-like sound again, getting louder and louder.

20. Jehovah came to the top of the Mt., and Moses was called to the top to meet him (Cf. the Mt. of Transfiguration).

21. The first thing was a warning to Moses to make the people keep their distance: GO down and give the order to keep them from breaking through to where Jehovah is, to take a look (out of curiosity) and getting knocked flat (lest they fall down)

These matters are not to be trifled with. Not to be treated as a mere spectacle what God does. A geologist looking at St. Helens found it hard to keep reminding himself that it was after all nothing but inevitable and perforce automatic natural forces at work.

The doings of God and man always have "side effects" visible in nature, but because they are natural they are not to be esteemed as of no significance. "So what if it is an earthquake—I'll tell you was causes it! More to the point it was IT CAUSES." I may mean nothing to the lightning & the rain & snow—but they mean a lot to me.

22. Those authorized to approach are the priests. Why? Because they are willing to take things more seriously.

If there IS anything behind what is going on on the earth, we will never find out what it is if we do not approach things with serious minds and lively interest.

Nothing seems to interest the new generation: it may be that they have already seen it all in TV and space and science movies, but the condition of the Am. public suggests that of people who have been lobotomized. Incurious as oxen, impatient as water-fleas.

The priests are commanded to act with propriety: They must sanctify themselves in case (NOT to prevent as above) Jehovah yifrotz bahem—"comes to them as a special group.

23. Moses: The people aren't coming any closer to the Mt., because you have already charged them to keep their distance, and sanctified it.

24. Moses now sent down, with orders to return to the top again with Aaron, seeing that the people and the priests keep their proper distances.

"THEY MUST NOT try to ascend any nearer to Jehovah or they will be overpowered"

He will yifrotz: explode, upon them.

24. Moses went down and gave instructions.
Exod. 20. The Ten Commandments, with expl. in Ch. 21.

1. And Elohim spoke all these words saying:
2. I am JEHOVAH YOUR ELOHIM: you brought you out of the land of Egypt from the House of servants.

I. 3. There shall not be to thee other Elohim upon (at the expense of) my face

II. 4. Thou shalt not make for thyself a graven image of any picture which is in heaven above and which is in the earth beneath and which is in the water below the earth.

5. Thou shalt not bow down to them and shalt not serve them: for I Jehovah thy Elohim (anh El Qana = canco, kindle, get/red = who gets red in the face.

poqeh = keeping close watch on, account of, inspection, holding accountable children for the transgressions (tavon = be unstable, perverse, turn aside, be unreliable) of fathers at the expense of (al) the third & the fourth ones of my haters (biters).

BUT doing khesed (everything good and kind) to the THOUSANDS (as against 3 or 4) who love me AND keep my commandments. 

[Already to LOVE the Lord is TO KEEP HIS COMMANDMENTS—it is not enough to say Lord, Lord and proclaim your love for him. Esp. obnoxious is to proclaim his special preference for you like the Zoramites and some others.

N.B. the savage, jealous old tribal god of the O.T. is already a God of khesed, holding to account only those who HATE him (cf. nasha = turn aside, desert). He does not say what specifically he will do with those who hate him—no plagues or tortures prescribed. But the very least we can expect of him is to hold the willfully rebellious to account: that is all he does here, while showing every kind of goodness to all the others.

III. 7. Thou shalt not tashsh tisse (nass = to lift up, make conspicuous, call attention to, speak in a loud formal voice, etc.) the name of Jehovah thine Elohim for shau [lit. emptiness, nor seriously, light-mindedly]

Specified is that God's name shall not be used in improper context. Use it only when you mean it, and in ordinances etc. which HE has prescribed.

IV. 3. Remember the Sabbath day to keep it holy (sanctify it = set it apart from the others) i.e. from the six days shalt thou work and do all thy labor.

10. But the seventh day is the Sabbath of Jehovah your Elohim. Thou shalt not do any labor--thou nor thy son nor thy daughter, thy man servant, thy maid-servant, thine animals, nor thy visitor who is inside your gates.

11. Because in six days made Jehovah the heavens and the earth the sea and all that is in it and rested (yanakh = took a breather) Therefore the Jehovah blessed the Sabbath day and made it holy.

V. 12. Honor (kabbedh) thy father & thy mother for the purpose that (l'ema'an) may be lengthened thy days upon the earth (ha-ademah) which Jehovah thy God has given to thee.

[If you stick to your parents you will keep the farm? the preservation of the heritage is the preservation of family traditions and ties. If you honor them you will do what they have taught you, which is to do things their way. You will also cherish their way of life and their corner of the world.

VI. 13. Lo tirstakh = murder (by violence) n.b. These commandments are NOT in the IMPERATIVE but in the simple Future indicative. They are not QUALIFIED. THIS IS THE LAW which we must follow: the GENERAL ORDERS, that apply equally to all in all times and places and under all circumstances; No man can temporize or rationalize or interpret.
Exod. 20. The X Commandments.
"...thou shalt not...
   The Old Law, etc. The long explanations of the Law that follow all fall under the two categories declared by the Lord:
   21:25
Mt. 22: 35. The one of them, a lawyer, asked, testing him, and saying:
   36. Master, which is the great commandment in the law?
   37. Jesus said unto him, Thou shalt LOVE THE LORD THY GOD WITH ALL THY HEART, AND WITH ALL THY SOUL, AND WITH ALL THY MIND.
   38. THIS is the first and great commandment.

   39. And the second is like unto it, Thou shalt love thy neighbor as thyself.
   40. ON THESE TWO COMMANDMENTS HANG ALL THE LAW AND THE PROPHETS.

Lk.10:25. And behold a certain lawyer stood up, and tempted him, saying, Master, what shall I do to inherit eternal life? 26. He said unto him, What is written in the law? how readest THOU? 27. And he answered and said, Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind; and thy neighbor as thyself. 28. And he said unto him, THOU HAST ANSWERED RIGHT: this do, and thou shalt live. 29. But he, willing to justify himself, said unto Jesus, AND WHO IS MY NEIGHBOR? 30. And Jesus answered and said, A certain man stripped, wounded, left half dead. 31. And...a certain PRIEST... when he saw him, he passed by on the other side. 32. And likewise a LEVITE... came and looked, and passed by on the other side. 33. But a certain SAMARITAN... came where he was: and when he saw him, he had compassion...
   36. Which now of the three...was neighbor unto him...? 37. Ans.: He that shewed MERCY on him...GO THOU AND DO LIKEWISE.

This was Christ's evaluation of the X Commandments.
All of which he makes POSITIVE:

I. Thou shalt love the Lord...very positive, a rule of LOVE, but the LOVE that overrides all is the statement of the OLD Law; he is not paraphrasing but quoting.

II. Thou shalt call upon him idirectly, not channels necessary.

III. You shall always think of him as your eternal Father & hold his name as holy.

IV. You shall always keep HIS Holy Day--he wants you to enjoy yourselves.

V. Honoring your earthly parents is & joining of the 2 great commandments.

VI. You shall hold all life in reverence, loving your nabor as yourself. Your nabor is whoever you show mercy to--& that should be all things.

VII. By true and faithful in all relationships, putting all others on your own level of interest.

VIII. Honor the trust that others put in you. Do not beak the faith.

THE WORST THING ABOUT BIKE THEFTS is that we mistrust every kid on a bike.

IX. Let your word be your bond, sacred and inviolable. (Must it be a formal oath?)

It is the strongest bond between you and GOD'S OTHER CHILDREN AND creatures.

X. Let every one enjoy that which is his--be happy with others, & let your their pleasure be yours.

22. If a man causes a servant to lose an eye, the servant shall go free—Lev. 25:47

23. But if complications do occur, then life shall be given for life [i.e. to the extent of the damage suffered] as the next clause shows—a continuation of this:

25. A puviyyah = a blow for blow, a khebruh = a swell, swelling for

26. If a man causes a servant to lose an eye the servant shall go free—Lev. 25:47

Such treatment will not be tolerated. In the USA for 100 years it was contributory negligence, and it was the owner's own business with which nobody had a right to interfere. The "savage old tribal law" was juster and more human than ours, under which the servant would have a hopeless time trying to collect against company lawyers.

27. For a thing as trivial as a tooth the servant is free.

28. If an ox kills a man or woman, the ox must be stoned to death and its flesh taboo. But the owner is not responsible...

He cannot be with his ox 24 hours a day, and oxen move among us even though we know they can be dangerous—a chance we all take.

29. But if the owner knew the ox was dangerous around people and still let him go out, then he shall have full responsibility: the ox killed and he executed also.

The IAHAN principle: the plant that knows it is dealing in dangerous chemicals; the mill the knows from long experience that workers get maimed and killed

For many years the principle of contributory negligence acquitted all owners and operators of any guilt. Today skillful lawyers find a way to... The ancient law of 3000 years ago is more human and honest.

30. This seems hard: the man did not kill directly—the ox did, though he let the ox go loose, like shooting a missile or throwing a bomb into the street.

But because it is not a direct killing he is allowed to buy himself off with wrgeld: He is given a chance to pay off to be redeemed by a sum of money, a ransom for his life: how much must he pay? Whatever is laid upon him.

The Lord refers to this: "All that a man has he will give for his life"—gladly!

31. The same settlement whether it was a person or the son or daughter of that person who was gored—all persons equal before the law.

32. If it was a man or maid-servant killed 30 shekels of silver shall be paid and the ox killed. [Christ was "the suffering servant" when Judas sold him for 30 pieces of silver; the Jewish officials having paid it had paid the price for his death and did not consider themselves guilty thereafter.
Exod. 21:33. If a man uncovers a pit or hole, or digs one, and fails to cover it again, if an ox or ass falls into it, 34, the owner of the hole must give satisfaction with money in full payment for the beast—which he shall keep—he shall buy it from him at his price. [Negligence: how badly can a negligent owner keep his ox?]

35. If an ox goes another's and it dies, the live ox shall be sold and the price divided between the two owners, as also the meat of dead ox. [Is this fair? Yes: the owner of the dead ox gets what he would if he sold it either dead—-for meat—-or alive: two halves—the whole price.

The owner of the other ox loses his ox, but gets paid for it in the same way. Why isn't he hit harder than the other one?

1. Because it is in the nature of oxen to behave that way.

36. BUT if he knew that his beast was an aggressive one and has been negligent in guarding him, he shall give the other ox for ox, i.e. the other neighbor shall have his live ox, while he keeps the dead one.

(What could be more fair. It makes one sad...)

35. Five oxen for one stolen ox (slaughtered or sold); four sheep for ditto.
The offense: betrayal of trust.

Exod. 22:1. If during a breaking and entering the thief is apprehended, knocked down, and dies as a result—no blood recompense: the blow was necessary to stop him—he brought it on himself. Just how hard to hit him an insoluble problem at the moment.

2. If the sun shines upon him [if he is recognized (later) in broad daylight?] he must suffer physical punishment (or a blood-mark must be put on him) and (he?) must be sold in his stealing.

4. If he is caught with a stolen live ox or ass or sheep he must repay double. [Why so easy? Perhaps because it was so easy to make mistakes, e.g. by nite,

5. Whoever lets his animals feed in another man's field or vineyard must pay back with the BEST (produce?) of his own field or vineyard.

6. For a fire that gets out of control in the fields, whoever started the fire must pay for everything. [Caution: responsibility]

7. IF stuff left with another for safekeeping is stolen:
   a) If the thief is found he must pay double (to whom?) Who pays? The nabor for his carelessness.
   b) If no thief is found then the first question: Did the man himself take it? This shall be decided by the mudges (many stories: Daniel

9. Whenever two claim to be the owner of the same thing, the judges must decide.

10. (KJ) If a man hands over (natan) an ass, ox or any other animal to his nabor for safe keeping & he animal dies or is hurt or disappears they must both swear the oath of Jehovah, that neither has done anything to the entrusted property, and both shall be satisfied with that.

12. If it was stolen, the nabor entrusted with the beast must pay

13. IF killed by a wild animal (torn) evidence for that must be supplied. There is no penalty for loss of an animal to wild beasts.

14. Whoever borrows something which is damaged or killed while he has it must make it good. 15. But if the owner is still on the scene, then the other is not responsible.
Exod. 22: 15. IF the beast he antrusted to his nabor was a hired one, and gets killed or lost, then he must pay the hiring price.

   Form you were strangers in the land of Egypt.

   The famed hospitality of the Arabs: You may be next!
   Haud ignara malis, miseris succurrere disco
   Why didn't the Mormons learn this?
   The brave man never asks the odds
   The generous man never asks the price
   The good man never asks questions
   [We ALWAYS ask questions--sound business practice. Why should the Good Samaritan risk helping some unknown bum in the gutter until he was sure he could pay for it?]

21. You shall not take advantage of any (tšanunn) any widow or orphian.
22. If you do so to any degree (such as withholding needed food or medicine) when they cry to me, I will surely hear their cries.

[N.b. a certain protection is guaranteed to the helpless. They cannot be required to pay for it.
   And it is not our business to decide who is an who is (not) truly needy before helping (Benjamin) We are ALL beggars...The hardest working person alive is still and unprofitable servant, consuming what he cannot produce.
   IT is this all pervading humanity which is the mark of the LAW given to Moses, which we are nullifying today by pious sophistries and forthright rejection:
   This is the ME generation, with everyone a center of special interest, basing all decisions on the simplest of principles:
   Whatever bring me money, no matter how, is good.
   Whatever costs me money, no matter for what, is bad.

24. God is the protector of the weak, who will take it as a personal offense:
   "my wrath will wax hot; I will slay you in battle
   and then YOUR wives and children will be in that position"
   [Cf. Mormon 8: why do you build up your secret combinations, etc.
   and cause widows and orphans to mourn
   behold the SWORD of vengeance hangs over YOU.

25. Don't take advantage of a person in need to charge him INTEREST
Exod. 23:4 If you find the ox or ass of you [ENEMY] straying, you MUST RETURN IT TO HIM--you do not bring a lawsuit against him. 

(Is THIS the savage old law? We would call this a generous, magnanimous, even a foolish act, since you miss a chance of getting even or gaining an advantage over your avowed enemy.

Cf. Our extreme pettiness in dealing with THE Russians. We will not SELL them at a good price the thousands of tons of butter that will soon rot in govt. storage houses. Strictly speaking, the above act is giving aid and comfort to one's enemy, which many define as treason...)

5. This one is even better: If you see one who hates you trying to get his loaded donkey back on his feet, you MUST help him.

6. You shall not take advantage of a person because he is poor. 
   (Like the Nephite courts)

7. Why would anyone want to say the "innocent & the righteous?"--not for any offense to us but for some advantage to be gained.
   (The MAHAN principle is of vast application:
   drugs, arms, pollution, faulty products, dangerous work, rip-offs,
   things the innocent & righteous must suffer because they are helpless. They have never sought power and do not understand it.

8. Do not accept gifts, they have a persuasive power, that blinds the wise man and even leads the righteous to stretch a point.
   
   [This is the wisdom of the Election Laws which limit contributions, which the present admin. claims to be bad laws and which they wish to abolish for unlimited gift-giving.
   A man is bound to listen to the big contributors to his election--it has become accepted practice in America, and is utterly corrupt.
   85% elected were the richer candidates in 1978.

9. Do NOT take advantage of a stranger (foreigner), you must HAVE A HEART in such things, show some empathy--YE KNOW THE HEART of a stranger, seeing YE were strangers in the land of Egypt.

12. The resting commanded on the Seventh Day has the SPECIFIC PURPOSE of allowing and work-animals to rest, and the servants to rest, and the outsider to relax.

13. DON'T MAKE A SHOW OF ALL THIS. Don't overdo it. Where the strangers are concerned, simply don't talk about other gods, or enter into discussion about them (to show how pious an upright YOU are).

20. All this must be done at a certain PLACE, and I will send an angel to direct you to it.

21. Behave yourselves (hishshamar) with him, and pay attention to his voice, do not ramble him (tamer be = embitter) he is not to be trifled with; he will not view your misbehavior lightly. Because he is acting in MY NAME. What did he look like? Did he say yah?

22. But pay strict attention to what he says, and do everything as I am telling you— and I will be your adversaries' adversary and afflict those who afflict you.

[But it is up to God to decide who are his friends and who his enemies. It was when they were acting the worst, according to Isaiah, that the Israelites declared most loudly that they were on the Lord's side. "Who is on my side is for ME to decide," says the Lord—otherwise they all give themselves the prize of my approval for whatever they want to do, e.g. the Vitalienbrüder: Cottès Freunde, aller Mensche Feinde.

23. The angel is going to conduct them into settled and powerful kingdoms: Amorites (NE), Hittites (NW), Perizzites (Center & E) Canaanites (mostly coast), Jebusites (around Jerusalem): I will cut them off.
